THE ANSWER TO THE GLOBAL FINANCIAL CRISIS

Those who believe and do deeds of righteousness, and establish regular prayers, and regular charity, will have their reward with their Lord: on them shall be no fear, nor shall they grieve.

Surah: 2, Ayat 277.

O you who believe! Fear God, and give up what remains of your demand for usury, if you are indeed believers. If you do not, take notice of war from God and His Apostle: But if you turn back, you shall have your principal: Deal not unjustly, and you shall not be dealt with unjustly.

Surah: 2, Ayat 278-279.

**ALLAH (swt) blessed us with The Quran and Prophet Muhammad (pbuh) who built the best model community, Medinah, and demonstrated to the world
THE BEST ECONOMIC SYSTEM,
all based on The Quran.**

**It is now the time for Muslims in the Persian Gulf
To partner up with the Muslim Alliance, Indigeneous Muslims in the United States of America with direct investments to restore that light, by building model communities and an economic system in the inner cities of America, based on The Quran and Sunnah that will radiate out to the broader and global community, which then will lead mankind out of the global darkness.**

Debt-Laden Dubai Seeks Investment Advice

BY MAJDOLINE HATOUM

DUBAI—This Mideast boomtown's government has hired financial advisers to review its investments amid a global credit crunch that has pushed up the cost of financing the emirate's large debt, according to senior Dubai officials.

The advisers will review the investments of various Dubai-owned companies and present a report on how to reduce the risks

the global downturn, the officials told Zawya Dow Jones.

The officials declined to describe details of the advisers' mandate or to identify whom Dubai has hired to carry out the review.

Analysts say Dubai may find it difficult to refinance its massive debt as international capital markets have become increasingly difficult to access. Dubai's rulers have financed economic diversification and rapid growth

ing through state-controlled corporate entities.

Abu Dhabi, the United Arab Emirates' federal capital, has deep pockets thanks to its vast oil revenues. Analysts say it could come to Dubai's aid, providing a sort of federal bailout for the government or its corporate entities.

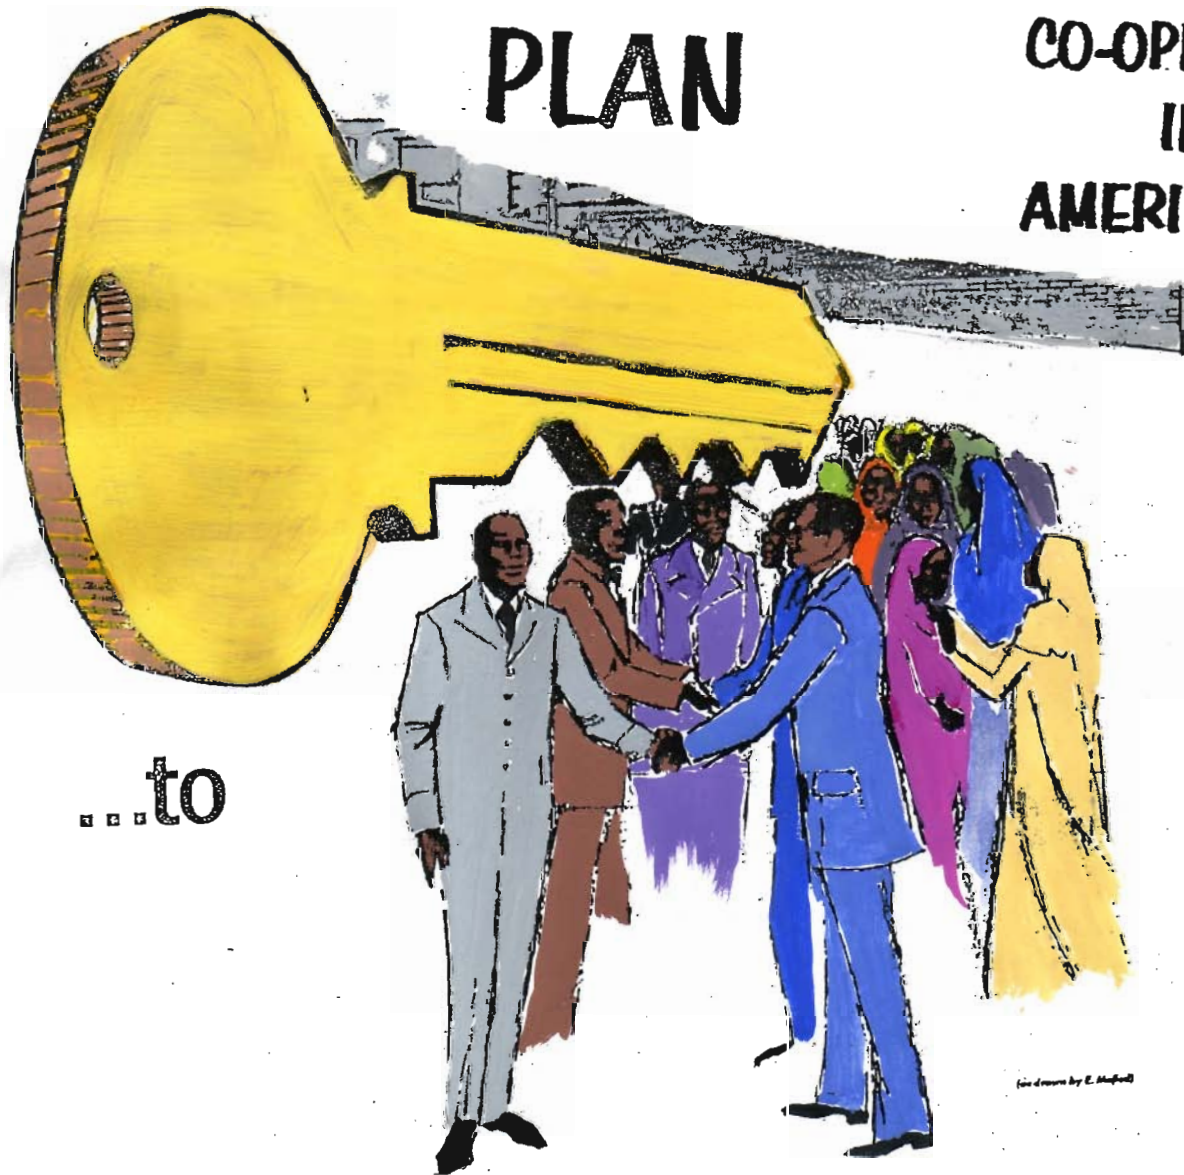

Publicly, Dubai officials have said in recent weeks that the government's finances are sound and that it won't have trouble
